MISCELLANEOUS.

UNOCCUPIED CHURCHES.

WHEREAS. There are many of our churches at which services are held only once or twice a month;

AND, WHEREAS, The general interests of Methodism require that our

congregations be brought together more frequently; therefore,

Resolved, That some intelligent layman or laymen be requested or appointed by the pastor to conduct religious worship at each of these churches on those Sabbaths when not occupied by the pastor or other minister of our church.

WOMAN'S MISSIONARY SOCIETY.

Resolved, That we do most heartily and earnestly welcome our sisters into the work of missions, and promise them all help in our power, both as pastors and brethren.

THANKS.

Resolved, That we do hereby unanimously tender our heartfelt thanks to the kind people of Shreveport for the generous hospitality lavished upon us, and to the pastors and official Boards of sister churches for the use of their pulpits during the session of this body. We also express our grateful acknowledgments to the various railroad and steamboat lines for abatement of fares, and to the local newspaper press for extended notices of our proceedings.

MISCELLANEOUS.

UNOCCUPIED CHURCHES.

WHEREAS, There are many of our churches at which services are held only once or twice a month;

AND, WHEREAS, The general interests of Methodism require that our

congregations be brought together more frequently; therefore,

Resolved, That some intelligent layman or laymen be requested or appointed by the pastor to conduct religious worship at each of these churches on those Sabbaths when not occupied by the pastor or other minister of our church.

Woman's Missionary Society.

Resolved, That we do most heartily and earnestly welcome our sisters into the work of missions, and promise them all help in our power, both as pastors and brethren.

THANKS.

Resolved, That we do hereby unanimously tender our heartfelt thanks to the kind people of Shreveport for the generous hospitality lavished upon us, and to the pastors and official Boards of sister churches for the use of their pulpits during the session of this body. We also express our grateful acknowledgments to the various railroad and steamboat lines for abatement of fares, and to the local newspaper press for extended notices of our proceedings.

ACT OF INCORPORATION.

An Act to Incorporate the Louisiana Annual Conference of the Methodist Episcopal Church, South.

SECTION I. Be it enacted by the Senate and House of Representatives of the State of Louisiana, in General Assembly convened, That John C. Keener, H. N. McTyeire, J. Saunders, R. Randle, J. B. Walker, S. J. Davies, L. Parker, Philo M. Goodwyn and L. A. Reed, and their associates and successors, such as the Louisiana Conference may from time to time see proper to appoint, be and they are hereby created a body politic and corporate under the name and style of the "Louisiana Annual Conference of the Methodist Episcopal Church, South," and by which name the said corporation shall have succession, and be capable of suing and being sued, entering into contracts, and receiving and holding property for educational purposes, and such charitable purposes as may, from time to time, be specified by the said Conference at its annual session, either by donation or purchase.

SEC. II. Be it further enacted, etc.. That the domicile of said corporation shall be located in the city of New Orleans, and the affairs thereof shall be managed by nine trustees, to be appointed by the Louisiana Aunual Conference, one of whom shall be elected President. The President and four trustees shall form a quorum, and shall have power to appoint all other officers necessary for conducting its affairs, and make and adopt such rules, by-laws and regulations as they may deem proper for the management of said corporation, provided that the same be in conformity with the laws and regulations of the Methodist Episcopal Church, South, and not repugnant to the laws of the State.

JOHN M. SANDIGE.
Speaker of the House of Representatives.

ROBERT C. WICKLIFFE.
President of the Senate.

Governor of the State of Louisiana.

LEGAL CONFERENCE.

Revs. Charles W. Carter, T. K. Faunt LeRoy, C. Keener, John T. Sawyer, R. S. Trippett, John Pipes, B. F. Alexander, T. J. Williams and W. H. Foster.

Resolved, That the Conference Board of Trustees be instructed to hold a meeting at every session of the Conference, and to make a report in due form to the Conference of their proceedings, and all matters in their charge.

Resolved. That the Act of Incorporation be published annually in the

printed Minutes.

DISTRICT CONFERENCE.

The following is the rule respecting the organization of District Conferences:

The District Conference shall be composed, first, of all the preachers, traveling and local, in the district; and, second, of one lay delegate from every forty members, or fractional part thereof, within the bounds of each circuit, station and mission in the district. The lay members shall be elected by the several Quarterly Conferences, and no Quarterly Conference shall be denied two lay delegates.

REPORTS OF BOARDS & COMMITTEES.

TEMPERANCE REPORT.

There is no question which has been more thoroughly examined and discussed than the consumption of spirituous liquors by the peoples of this world. It has been investigated in the light of science, hygiene, social and political economy and morality; and the universal consensus of the representative thinkers in these various fields is, that it is an evil so formidable and threatening that, if not checked, it will ultimately extinquish the race of man.

In the United States, more than 200,000 persons are engaged in its manufacture and sale, and millions of dollars are invested in its prosecution. In Europe, more men and money are involved; and, when looked at as a whole, the evil seems so widespread and well fortified that any attempt to mitigate it must seem, when superficially regarded, futile. If the evils of strong drink were generally recognized by the people as a whole, there would be greater hope in speedily suppressing the cause of them; but the most lamentable fact is, that millions of the race have tasted the magical cup, and are too intensely fascinated by it to be willing to relinquish it. They have been unconsciously and unintentionally brought under the despotism of the drink trade, and by it are made its minions to perpetuate a power which threatens the destruction of all the arts and achievements of this Christian civilization. Great and good men in this and other lands have sounded the alarm, and the attention of millions of thoughtful persons has been directed to the manimoth proportions of this great iniquity. The churches are no longer dumb. Thousands of her pulpits resound with most emphatic denunciation of the drink evil. Temperance and prohibitory organizations are being formed all over the land to antagonize this monster crime. The Knights of Labor, controlling in large measure the thoughts and passions of millions of our fellow-citizens. have declared war against King Alcohol, and refuse fraternity with any who manufacture or sell intoxicating liquors. This militant attitude grows out of the manifest iniquity of the drink trade. It is an evil without mitigation. It is the parent of all other crimes.

The Supreme Court of the United States, in the decision recently rendered, in which the constitutionality of prohibitory laws was affirmed and emphasized, said: "We can not shut out of view the fact, within the knowledge of all, that the public health, the public morals, and the public safety may be endangered by the general use of intoxicating drinks, nor can we ignore the fact, established by statistics accessible to everyone, that the disorder, pauperism and crime prevalent in the country are, in large measure, directly traceable to the evil."

A writer in the *North American* declares: "It blights, it sears, it rots, it decays, it destroys whatever it touches. If the seller outlives the buyer, it is only because he is cold blooded enough to make profit out of the destruction of his fellows without exposing himself to the danger they invite; but in the end it kills him. It is the cause of 'ninety per cent. of the pauperism with which the world is afflicted, and which good men have to pay for, and fully ninety per cent. of the crime of the world may be charged to the same cause. It makes paupers and criminals of men in the first instance, and entails pauperism, insanity, and an irresistible tendency to crime upon posterity." Nothing can be said in defense of it. As a medicine, it is rarely needed, and some of the most renowned physicians declare that it should never be used even in sickness, as other stimulants are known in materia medica whose direct and after effects are better.

Alcohol is a recognized poison, and the liquor traffic is nothing less than the wholesale slaughter of human victims whose earnings are confiscated and deposited in the coffers of diabolical selfishness. Should it be tolerated? It not only enslaves millions of men and carries hundreds of thousands of them annually into drunkards' graves, but it reaches down to thousands of the youths of the land from ten to fifteen years of age, and fastens its deadly fangs in their vitals. It inveigles young girls and maidens into its brilliant and convivial temples, and sends out annually an immense army of prostitutes to parade the streets of the great cities. It is not only the assassinator of life; it is also the spoliator of property and the seducer of virtue. At its doors are hatched plots, treasons, incendiarism. conspiracies, murders most foul, and deeds the most violent. Its thresholds have been amphitheatres of most bloody deeds, and at its unhallowed altars young manhood has often been transformed into helpless imbecility. It is a brazen-faced law breaker. What command of God or law of man has it not defied? Where does the Sunday Law exist which it has not tried to defeat? Into what Legislature have its lobbyists and hired emissaries been too conscientions to go with bribery as their object? What session of Congress is distinguished for the absence from it of liquor men whose money and political influence for years have successfully defeated a repeatedly proposed bill for a commission to inquire into the nature of the liquor business? At what election have the saloons been hermetically elosed, so that the presence of liquor might not tamper with the votes of those exercising the election frauchise? The liquor men are a great power in the politics of the country. A writer says: Take their enormous vote, mass the men employed in breweries, the wholesalers and retailers of liquors, the bar tenders and other assistants directly employed, the collateral branches of trade dependent more or less upon them, and the vast army of hangers-on of the saloons, and it is a power which can and does control the cities of the country. Parties vie with each other in bidding for the saloon vote. nominations are made with sole reference to it, and this unholy power would become the government but for the counteracting influence in the country, which is yet, to some extent, free from its infernal influence." For one moment contemplate the havoc which such rulers would make of the order, proprieties and ethics of the land, if they had unlimited control. We are not altogether unacquainted with their unfitness for legislative and municipal honors in our own State. Enemies of God, of the Bible, of religion, of the church, of humanity, they would in a short time reverse the wheels of progress and carry the race back to the days of vice and ignorance, when men "changed the truth of God into a lie, and worshiped and served the creature more than the Creator.

In Louisiana, at the last session of the Legislature, the liquor license was fixed at \$50. This puts a premium on the iniquitous business. A

legitimate business pays a higher license.

It is important not to overlook the existence of an organization in New Orleans, and in the largest towns of Louisiana. recently formed in the interest of the liquor trade. Their object is to secure votes toward the abrogation of the Sunday Law, and to oppose high license and prohibition. Several thousand persons have agreed among themselves to vote for only such legislative candidates as will endorse their principles and work for the above purpose. This enforces on the attention of the moral and patriotic suffragans of the State the necessity of counteracting such influences by a more conscientious and systematic employment of the ballot.

We will not consume space to emphasize the vast expenditure of money and the reduction of the resources of the land consequent upon the existence of the liquor traffic. The moral consequences are of infinitely greater concern. Its destruction of health, of mind, of manhood, of reputation, of the soul, are considerations sufficient to influence any Christian heart with undying protest and uncompromising warfare against this enemy of the race. The penitentiaries, the hospitals, the insane asylums,

the grave of many a suicide, households of despair, many a broken heart, thousands of blighted lives call to us, as ministers of God, to wage relent-

less battle against this champion of perdition.

The government, seeing the danger, has tried to lay some embargo on evil. The effort has been to discourage the manufacture of alcoholic the evil. beverages by imposing a heavy revenue on them. President Cleveland, in his recent message, suggested that the tariff be diminished on articles necessary to human comfort, and more heavily imposed on luxuries, and among them he designated spirituous liquors. This has not succeeded in lessening the evil, inasmuch as distilleries and breweries are in flourishing condition, and the liquor trade does not seem to have suffered much. High license has been resorted to. It is claimed by the exponents and advocates of this method that the results are measurably satisfactory. Many earnest and conscientious temperance workers favor high license, as more constitutional and efficient than the more radical measure of prohibition. While the effect may be to discriminate against the smaller and poorer saloons, it enhances the patronage and attractiveness of the more pretentions drinking establishments. But one method seems left, and that is absolute prohibition of the manufacture and sale of spirituous liquors, except for medicinal purposes. It is answered that prohibition has been resorted to in some parts of the country, and has been found inefficient to prohibit. It is quite as true that the law forbidding nurder, arson, forgery, does not absolutely prevent the perpetration of these crimes. But who shall say that these laws are not greatly protective of human life and property? There are evil men who, when inflamed by passion or enpidity, will dare infringe any law and defy any consequences. But the vast majority of those inclined to wrong-doing are deterred by the arm of the law and the penalties enforced.

The Christian citizen should make no compromise with crime. To license any iniquity for pecuniary purposes or on grounds of expediency is clearly opposed to the divine revelation. Prohibition, thorough and absolute, is the demand of the Christian commonwealth. The liquor business should be construed as crime, like the administering of poison, and severe penalties should be imposed on the offender. Let the law against the traffic be so constructed as to stamp the man who engages in it as a crimi-Let society declare itself against the transgressor; let him be ostraeized from the regard and recognition of his fellows. Let the frown of the community rest upon him as upon the assassin, or wife beater, or highway robber. Let the man who contemplates such a business understand the degradation and criminality which attaches to the nefarious employment. It must be stamped out! This was the divine method in relation to the extinction of idolatry. Upon the extirpation of the liquor business is conditioned the blessing of God on the nation. The voice of history is in vain

unless its warning be heard.

While we recommend the uncompromising extinction of this great evil, and while in duty bound we must characterize it as it merits, yet we would not forget to extend charity to and carnestly invoke the grace of God in behalf of the thousands who, in ignorance of God, defend and perpetnate this destructive business.

RESOLUTIONS.

Resolved, That we extend most hearty sympathy to all temperance organizations in the State, the object of which is the suppression of the drink evil.

Resolved.That we are in active sympathy with the temperance work of the Woman's Christian Temperance Union, and bid them God-speed in

their great work of reform.

Resolved, That the Secretary of the Louisiana Conference be requested to prepare a suitable memorial, to be addressed to the coming session of the Legislature, praying that no change be made in the Sunday Law as it now exists, by which drinking-saloons are ordered to be closed on the

Lord's day.

Resolved, That we are ready to co-operate with our fellow-country-men in any proper effort to secure the passage of a constitutional law prohibiting the manufacture and sale of spirituous liquors, except for medic-

inal and mechanical purposes.

Resolved, That we deplore the exportation of spirituous liquors from the United States to foreign lands, especially to Africa and other countries, where ignorance and superstition and barbarism are regnant; thereby impeding and counteracting the labor of Christian missionaries, and driving godless and untutored peoples yet further into the meshes of despair.

Respectfully submitted.
S. H. WERLEIN, Chairman.

REPORT OF THE BOARD OF EDUCATION.

The Board of Education have carefully reviewed the status of our educational interest, noting the comparative condition of our schools. While progress has been apparent at one point, but little, if any, advance has been made at another. For some years past this Board has been trying to find the hinderance to our success. In the faculties and in the curricula of our schools we believe we recognize the elements of fitness; and yet we do not see the success for which we so anxiously wait. As to the expense of education in our schools, it is clearly as light as can be expected where first-class work is required. The prices of board and tuition seem to be regulated with a view to the finances of our people. So far as we are able to learn, the methods of teaching, the religious preception, and general discipline of our schools are according to the most generally approved methods in schools of similar grades. We have looked in vain to the colleges for the hinderance to success.

In the firm belief that there is a way to succeed, and that when once the proper way is opened success will be reached, we have turned our

attention to the question of District High Schools.

Comparatively few people ever complete a college course, while, for the same reason, many never enter college. Schools of high grade, centrally located in our denominational centers, would reach many hundreds of Methodist youths who can never be reached under our present system.

Two great schools, however eligibly located, can never meet the demands of Methodists of Louisiana. Their locations are too remote from the homes of the patrons. Brick and mortar are not the demands of the day. Teachers—men and women who fear God and teach school because they can do good by teaching—are what we need.

There is some locality in each district of our Conference, perhaps more than one, where denominational schools could be established and run successfully. True, this could not be done with the heavy and expensive machinery of a college; but, with the simple gearing of a high school,

such an idea is not chinerical.

In our greatness we seem to have overlooked our minor resources. While a simple "common-school" education measures the ambition of the masses; while such is the demand of our people, and of the people generally, it seems the part of unwisdom to provide for, and demand of such, a college course of instruction. The local patronage of nine-tenths of the denominational colleges constitutes the greater part of their matriculation. If this be so, and the expensive organizations of those colleges can be kept up with such patronage, why may not the High School succeed with an equal local patronage, aided by a comparative "boarders' list" of semilocal students?

Referring to these great central schools, one or two in each Conference or State, we are told that there is "strength" in "union." This may be true; but there is not always success in union—not always safety in it.

This principle applied to a "skirmish line" would be pronounced very poor generalship. It is equally poor when applied to schools. Every part of the line should be occupied—every possible place should be filled. The secular authority is gradually encroaching upon Christian prerogatives in the administration of the school systems of the several States; and the churches will have to fight or retreat. The establishment by the State, of great central schools, richly endowed by annual contributions from the public treasury, and granting free tuition to all who may be able to pay the board bill, is a dangerous thrust at the very heart of Christian education. The imminency of the danger will be more clearly seen in the light of the fact that, under the custom of the secular authorities of Louisiana, no religious tenets can be taught; and no moral fitness is required in the teachers. If, under our present system, we can overcome these difficulties, it will be a boon to know how to do it.

It is a fact that our colleges are first-class in the competency of the faculties and in the thoroughness of the curricula; and it is a most lamentable fact that but few of our people ever enjoy the opportunities offered by them. Hence it is clear that our present system does not reach the people.

Very probably a part of the difficulty grows out of, or results from, a want of what may be called denominationalism among our people. Christianity is full of charity to all men and all associations of men; and "Methodism is Christianity in earnest." But Christianity never overlooks its own demands, its cardinal principles and highest aims, on account of its charity to others. Nor should Methodism do so. We want a spirit in the membership of our church "which loves its own: and so much the more as we see the day approaching."

more as we see the day approaching."

Looking into the future by the light of the past, we see no hope for any material change along this line. That, like other things which we have tried, has failed; and we stand to-day very nearly where we stood ten years ago, with less than one hundred students in our school, having buildings and grounds valued at more than \$75,000. This, too, out of a membership of near 16,000 souls. Is there not necessarily some fault in a system which falls so far short of success? That is not the best the intelligence and wealth of our people can do, and will do, if only we can bring them face to face with the opportunities.

This is what we desire, and for this reason we present these facts to the Conference, trusting some steps may be taken towards the establishment of a system of graded schools which will bring our educational facilities nearer to the people (both as to distance and cost of education) than is possible with our colleges.

We have carefully inquired into the proposition contained in the papers from Gibbsland, presented to the Conference by Rev. R. Parvin, and, while we do not think it is to the best interest of our church, nor to the cause of education, for this Conference to take the matter in hand, we are rejoiced to hear of the zeal of our brethren there, and bid them God-

speed in the good work.

Touching this question, we offer the following resolutions:

Resolved, That the papers referred to this Board from Gibbsland, through Rev. R. Parvin, be referred to the Homer District Conference.

Resolved, That each of the Presiding Elders of the Louisiana Conference be requested to make an effort to establish one or more District High Schools in his district during the present year, or as soon as practicable.

CENTENARY COLLEGE.

The Board of Education has had before it communications from Bishop Keener, President of the Board of Trustees; from Prof. Wiley, Acting President; and from Rev. D. P. Bradford, who has charge of the Stewards' Hall of Centenary College. Beside these sources of information, we have been favored with the presence and counsels of Rev. P. A. Johnston, the recently appointed Agent of the College.

Through these channels we learn that the College is out of debt, in a good state of repairs, and has capacity to room and sleep 200 students. The patronage of the College is small—very small; which small number of students is attributed in part to the ill-timed resignation of President

Adams.

Acting President Wiley informs us that there are 50 students in the College: 9 of whom are studying for the ministry; 9 are the sons of ministers, and two are working their way through the college, making a total of twenty—or two-fifths of the whole number of students—non-paying. At present the Board of Education are unable to learn of the presence at Centenary of more than two sons of ministers, and no ministerial students from the Louisiana Conference.

from the Louisiana Conference.

The collections this year for educational purposes are even lighter than for last year, the amount being only \$398 55. We recommend that this amount be paid to Bro. Johnston, the Agent of Centenary College, for

tuition of ministerial students in the college for the year 1888.

We offer for the consideration and adoption of the Conference the fol-

lowing resolution, viz.:

Be it resolved. By the members of the Louisiana Conference, severally, that our sympathies, our prayers, and our unfaltering efforts shall be zealously directed to seening patronage for our worthy and venerable Centenary College; that we will commend it to our people, and welcome the Agent of the college, Rev. P. A. Johnston, to our charges whenever he may visit us in the interests of that institution; that all funds collected by the pastors, under the jurisdiction of this Conference, shall be at once forwarded by them to Rev. T. K. Faunt LeRoy, Treasurer of the Board, for which he shall receipt to the pastors, and report the amounts so received by him to the next ensuing session of the Conference.

MANSFIELD FEMALE COLLÈGE.

At the session of our Conference, held at Ruston, La., one year ago, the Board of Education were more hopeful for this college than for several years, and we are sorry to have to report our hopes not realized.

The reason for this stoppage in the growth of the college is, no doubt, largely due to the failure of Dr. Grace—on account of affliction in his fam-

ily—to visit the patrons of the school during the past summer.

It may be found necessary, in the management of the affairs of the college, to do one of two things, viz.: 1. Organize a cheaper faculty, and reduce the rates of tuition to meet the popular clamor; or, 2. Introduce a system of co-education. While the Board is not disposed to hold on to old things because they are old, nor reject new ideas because they are new, we donbt the propriety of introducing a system of military tactics, or manual of arms drill, into a female college, in lien of calisthenics. In the former, convenience and safety in handling a weapon is the object aimed at, while in the latter the exercise and development of each and every muscle of the body is the point sought to be accomplished.

The Board of Education desire to avoid the insimuation that Mansfield Female College has seriously lost ground since our last session. This, we are assured, is not the case. It is simply a failure to meet our expecta-

tions.

In view of the foregoing we offer the following:

Resolved, That, in the opinion of this Conference. Mansfield College should be opened to students of both sexes, and such changes made in the buildings and charter of the college as will conform and adapt it to the requirements of a school for both sexes; and that a committee of five be appointed to examine the charter of Mansfield Female College, and devise such methods as may result in a modification of the charter, so as to admit of the co-education of the sexes, and report at the next Annual Conference.

PROPERTY OF PIERCE AND PAINE COLLEGE.

We have no report from the Trustees of this property, but recommend

the election of the following Board for the year 1888, viz:

Rev. B. F. Alexander, Rev. Jno. Pipes, Rev. R. Parvin, Rev. R. J. Harp, Rev. R. S. Trippett, Rev. J. M. Johnston, Rev. J. B. Cassity, Rev. R. S. Isbell, Rev. F. M. Grace, Rev. S. J. Davies, Rev. J. M. Beard, Rev. N. S. Cornell, H. J. Davis, W. H. Jordan, W. Hampton, W. T. Hopkins, W. D. Gooch, D. A. Blackshear, N. Taylor, W. E. Davis, E. F. Nolan, Jno. Graham, J. H. Dorsey, Jno. Fike.

In view of the tendency of the times, to encourage various forms of

worldly amusement among the young people of our church contrary to our customs and doctrines, we offer the following:

Resolved, That we admonish the heads of our educational institutions to use every means at their command to discourage such things in their schools, and carefully to inculcate the teachings of the Methodist Episcopal Church, South, touching these things.

Respectfully submitted,

J. A. PARKER. President.

R. S. ISBELL, Secretary.

LOUISIANA CONFERENCE BOARD OF CHURCH EX-TENSION.

SECRETARY'S REPORT.

The amount assessed the Louisiana Conference for Church Extension last year was \$2,100. Of that amount the Treasurer's report shows that

only \$796 90 has been received, showing a deficit of \$1,403 10.

It is to be deeply regretted that the Church Extension enterprise does not receive that attention which its importance demands. This Board has already saved the church in some places from utter extinction; where misfortune has befallen it has rendered timely aid. It has goue into destitute places, and has assisted the poor in erecting a dwelling-place for the Most High; it has followed the missionary of the cross, and has enabled him to garner the fruits of his preaching; it has assisted in building the house, and making permanent in each conquered province a centre of moral power, giving stability and permanency to the work, and, therefore, should receive the hearty co-operation of presiding elders, pastors and churches, whose duties are clearly defined in the Discipline. We are falling far below the necessities and opportunities God opens before us. Hundreds of communities in remote places have no church, and can not build without aid. There is no limit to the work before us, and our resources and activities must be largely increased before we can meet even the most imperative calls of Divine Providence.

The report of the General Board shows that 232 churches were helped by loans and donations from April 1, 1886, to March 31, 1887; the Conference Boards have helped 181 churches, and the General Board 51 churches. During the same period five churches were helped within the bounds of the Louisiana Conference by our Conference Board to the amount of \$450; and during the present session \$200 has been donated to the church recently erected at Lake Providence. Delhi District; and still

other applications for help are before our Board.

LOAN FUND.

The General Board has also recommended to all our Annual Conferences the raising and administering of a Loan Fund, to be used only in loans to churches on adequate security, to be returned and afterwards re-loaned to other churches, thus perpetuating indefinitely its work. This movement, if presented fully before the business men of the church, would lead them to turn with special favor to the fund, Loan funds have been founded in several of the Conferences. The wisdom of this plan is demonstrated by its success. The first loan made by the Parent Board was on August 23, 1883. During the two years and a half following \$38,150 was loaned to churches, on which interest was paid amounting to \$598 25; and during the same period the amount of principle collected was \$8,950, making a total of \$9,548 25, showing that the Board had already gotten back more than one-fourth of the whole amount loaned.

It is to be regretted that up to this time no effort has been made to establish a Loan Fund by this Conference. The following words of Dr. David Morton, General Secretary, deserve immediate attention: "The success which has been achieved in those Conferences where effort has been made to raise loan funds warrants the belief that at least \$5,000 for such a fund can be secured in any Conference that will make diligent and persistent endeavor to do so. If your Conference has not already inaugurated such a movement, we trust it will be done at this session."

We have a Kavanaugh Loan Fund by donations of the friends of the late Bishop Kavanaugh. We have also a Marvin Fund and a Paine Fund; why not a Parker Loan Fund by the Louisiana Conference as a tribute to

our departed beloved Bishop Parker?

WOMAN'S DEPARTMENT.

This department of Church Extension has for its object the building of parsonages. This Board was fully organized at the last General Conference, which elected Miss Lucinda B. Helm, General Secretary. The interest in this important enterprise is deepening, and the church is aroused as never before on the subject of providing pastors with homes.

The General Secretary reported for the year ending March 31, 1887, a total of 92 societies, with 1,595 members. Three auxiliaries have been reported within the Louisiana Conference; but no funds have

been received by the Treasurer of this Board.

Church Extension Anniversary was held on Friday night, January 6. 1888, at which time a Parker Loan Fund was inaugurated—\$178 was raised

in eash and subscription.

The following are the members of this Conference Board: Rev. J. M. Beard, President; Rev. C. W. Carter. D. D., Vice-President; Rev. J. W. Medlock, Treasurer; Wm. Hart, Secretary; Rev. J. J. Billingsley, Rev. F. N. Parker, Rev. J. M. Johnston, T. C. Barrow, Dr. A. S. Helmick, B. O. L. Rayne, T. C. Standifer.

The Board adopted the following:

Resolved. That Rev. Dr. Carter be hereby requested to make appeals in behalf of the Parker Loan Fund through the columns of the Advocate, and in addresses during his travels.

Resolved, That the Presiding Elders are requested to make arrangement, if practicable, for public meetings during the sessions of their District Conferences, at which time addresses shall be made on Church Extension, and explanation shall be given concerning the Parker Loan Fund.

Resolved. That each preacher in charge is earnestly requested, if possible, to seeure, early in the year, the full amount of assessment for Church Extension, and forward the same, as soon as collected, to the Treasurer of the Conference Board,

Respectfully submitted,

WM. HART, Secretary.

REPORT OF COMMITTEE ON CHURCH PUBLICATIONS.

Our annual exhortation on this line is in order. It would to some seem an unnecessary labor to warn people against an cvil literature, and arge them to the use and adoption of pure and elevating publications. But such is the bias of mind to forbidden evil, and such the insidious attacks of sin and Satan in this way upon the mind and character, and such the unsuspecting spirit of many, that we are compelled to uplift the warning and pleading voice, from time to time, until the wrong is rectified, and the good and sound and wholesome, in book and paper, is established in the land.

How much is bound up in a book! What measureless force and power! An evil man passes away and is forgotten, but the book remains and gushes out its corrupting influences. To open it at any time is to unseal the fountain.

In the days of the primitive church a heresy would be demolished, and, lo! forty, fifty, one hundred years afterward, a book would be found—think of it! not a man, but a book would be found containing the pernicious doctrines, and the heresy would rage afresh.

If we could only get men to see that the mental and spiritual welfare of communities—nearer still, that the destiny and character of their children were profoundly affected by books; that the book in their hands was molding them more than any other influence, and almost more than all other influences combined, we would see, then, a carefulness that we do not behold now, as to the character of literature that enters their homes.

When we hear prominent unbelievers say that they obtained their first skeptical bias from a book; when we trace the churchless life, the diseased character, the wild and romantic imaginings, the unnatural melancholy, the unhealthy views of life, prevailing among thousands of our young people, to certain kinds of books and papers, who is not ready for reformation, if not revolution?

As for the power of a pure, good paper or book—who is sufficiently impressed, and can properly estimate? A gentleman said to the writer that whenever he stood in the presence of a large collection of books, he always took off his hat and remained uncovered. A sense of reverence at the silent greatness and uplifting influence, and awe at their power, swept over him, until the volumes became thinking, breathing, living persons before him, and he was, in a sense, silenced and overwhelmed in their presence.

What have they not done; what can they not do? One of the mightiest and most gracious gifts of God to men is a good book and paper. They feed the mind and expand the heart and broaden the character, and, in a word, do for us what the sunshine does for the seed imprisoned in the earth. Let the light come, we say, and that abundantly, in a pure, sound literature.

Let us remember that it was a book that arrested and turned Doddridge to heaven. It was a book that was instrumental in the salvation of Wilberforce. It was a tract'that, under Christ, saved Baxter, while in thousands of instances it has been the religious paper that from its pure white wings shook out fragrance and healing and blessings to individual and family and community. Here they are seed instinct with eternal life. Or here they are as signets, upraised, and ready to descend. And here on all sides are the spirits, plastic and impressible, and ready to be marked and sealed for righteous living and heaven. Let the signets fall! This committee says, Amen! and let the church say, Amen! It rests with the church to say what kind of signets we shall have. May God move upon us and direct us in this matter!

Next to continuous personal effort, upon the part of our preachers, to introduce good literature into the families of the land, we are impressed that the very best thing to be done now is for our ministers to preach upon the subject, showing in a set discourse the wonderful power bound up in and flowing from a people's literature.

We heartily commend our Nashville Advocate and other church publications to the notice and regard and use of our people.

As for the New Orleans Christian Advocate, we simply say that when Bishops have praised, and Conferences endorsed, and the public have been pleased, no action of approval or commendation on our part, as a committee, is needed. But we do say that the paper possesses our affection, and shall receive our best labors. The paper has done us good; let us do good to the paper. The Advocate has stood by us: let us all determine to stand by the Advocate.

B. CARRADINE.

REPORT OF COMMITTEE ON DISTRICT CONFERENCE RECORDS.

We, your Committee on District Conference Records, beg leave to submit that we have examined all the books presented to the committee, with the following results, to wit:

The Record of Homer District is defective in not naming, at the opening session, except in the *body* of the *minutes*, the *place* where the Conference was held. There is only one interlineation in the entire minutes for this session, and, but for a few ink-splotches, they are unusually full, neat, well arranged, indexed clearly, and properly signed.

On the Record for the New Orleans District Conference we report that it is also defective, in not naming, at its opening session, except in the body of the minutes, the place where the Conference was held; nor does this Record show in its opening session of what Annual Conference this District Conference formed a part. There are a few blots, seven erasures, and fifteen interlineations, which may the neatness and attractiveness of the book.

On page 37 we find the following: "The minutes of yesterday's session were read. E. P. Mackie objected to the use of the title Mr, as a prefix to the names of members of the Conference. The Secretary defended the title on the ground of good usage. The Secretary was instructed, on motion, to alter the minutes in this particular, so that the word 'Brother' be prefixed to the names of laymen, and 'Reverend' to names of clergymen therein." We find, on examination, that the corrections ordered have not been made on pages 33 and 34.

With these exceptions the minutes are well gotten up, with a good marginal index, and are very creditable to the Secretary.

The Record of Delhi District Conference is defective, in not naming the Annual Conference of which it forms a part. There is one interlineation, two erasures, and several ugly blots, which detract seriously from the beauty of the otherwise well-worded and well-written minutes.

The Alexandria District Conference Record was not before the committee, nor were the Records of the Opelousas and Shreveport Districts. The Presiding Elder of the former District reports, however, that the Record for that District was stolen. together with his valise, and could. therefore. not be produced.

Respectfully submitted.

JAS. J. BILLINGSLEY. for Committee.

REPORT OF SPECIAL COMMITTEE ON PAINE INSTI-TUTE.

Your committee to whom was referred the communication of the Commissioner of Education, relative to the work of our church in establishing training-schools in behalf of the Colored Methodist Episeopal Church in America, would state that we have had the same under prayerful consideration, and ask to make the following statements and to present the

subjoined resolution:

The organization of the Colored Methodist Episcopal Church, by authority and under direction of the General Conference of 1870, was clearly, in the light of these succeeding years, under the guiding hand of the great Head of the church. These people have remained true to us in the singleness of purpose, for which they were set up as a church. From their Bishops down, they have remained singularly free from all political alliances, and have held steadfastly to the one end of giving the gospel in Methodist simplicity to their people. Moreover, they have maintained their church in harmony with us in keeping the two races apart, socially and in the marital relation. They stand for the purity of their African as we do for our Anglo-Saxon blood. Again, we can rely upon their preaching everywhere against the whisky power. They teach their people to be quiet and law-abiding citizens, and to cultivate the closest friendship with our church and the Southern people as their natural and providential allies. Their progress and enlargement is amazing, considering their start and the unavoidable drawbacks, not the least of which was the almost gross ignorance of many of those they seemed forced to send out as ministers to preach the gospel and organize societies.

While all other negro churches in the South have been either directly or indirectly connected with the people North, and, as a consequence, have shared in the educational benefits by securing to themselves a more intelligent ministry, the Colored Church has had no one to look to for help, except the Southern Methodist Church. Your committee is profoundly impressed with the supreme opportunity that God has opened to our church to do a great missionary work for the negroes of the South by the establishment of these training-schools. Instead of one, and that one jeopardized for the want of a few thousand dollars, we ought to have at least three, thoroughly organized and equipped for efficient work. One of these institutes ought to be west of the Mississippi river; and we are glad to know from the Commissioner that such is the purpose of the Board.

We respectfully submit the following for your adoption:

Resolved, That in view of the fact that the property is jeopardized on account of the non-payment of amounts due, and the liability of failure to secure the \$25,000 conditionally promised by Rev. Moses U. Paine, we heartily commend the Commissioner, Rev. W. C. Dunlap, to the favorable consideration of those of our people who feel able and are disposed to assist in this noble work.

That in order to give publicity to our action, we respectfully request that this report be published in the New Orleans and Nashville Christian Advocates. THOS. J. UPTON.

B. F. WHITE. R. J. HARP.

REPORT OF SUNDAY SCHOOL BOARD.

According to the figures reported to this Conference, so far as they have been accessible to us, there has been very little increase in numbers; but, then, as the reports of some of the preachers reached the Secretary of the Conference after the statistics had all been tabulated, we may reasonably suppose that encouraging progress has been made.

The Sunday School work, in many sections of our territory, must be

prosecuted amid great difficulties and embarrassments; but, instead of yielding to these difficulties, we must "push the battle to the gates," and

conquer in the name of the Lord.

One of our greatest troubles in the rural districts is to find men of sufficient intelligence and consecration to act as superintendents and teachers, and lead in this great work until success has been assured. Lack of organization is another difficulty in our way. We have no conventions or prominent Sunday School meetings of any kind. If we would only look at the successes of secular life and see how much has been accomplished there by organization of different kinds, and then look at the success of the Sunday School work in other quarters, which success is attributed to the fact that the workers are organized, we might be impressed with the importance of this feature of successful operation. The brethren might hold, when practicable, circuit and parish conventions, so that plans might be compared and discussed, and an interest awakened that would add greatly to what has already been done.

We hail with delight the inauguration by our church of "Children's Day," and hope all pastors will see to its proper observance, and take on that day not a missionary collection, but, as directed by the General Conference, a collection for a Sunday School fund, ten per cent. of which must be remitted to Nashville, and the balance paid to the Treasurer of this Board. We would also say, for the information of the brethren, that \$130 10 has been raised the past year, and, with collections coming in by the next Conference, we will be in condition to help such schools as may

be in need.

Rev. A. E. Clay has been elected Secretary of this Board, and correspondence may be opened with him and applications filed with him; but

the money is to be paid out only by order of the Board.

All amounts collected on "Children's Day" may be remitted to Rev.

L. A. Reed, Treasurer.

J. M. Brown, Chairman.

ON BIBLE CAUSE.

Your Committee on the Bible Cause beg leave to report. We rejoice to know that the blessed Word of God is now being printed and published in upwards of two hundred languages and dialects of the babbling tongues

of earth, including Bibles for the blind.

The reports which have been made on the floor of the Conference reveal the fact that very little money has been collected during the past year in behalf of this cause, and that there are many sections of country within our bounds, and many families, destitute of the Holy Scriptures. This we regard as not only a serious obstacle in the way of our church

work, but a reproach to our civilization

We are pleased to learn that the Rev. J. W. McLaurin has been appointed District Superintendent of the American Bible Society for the States of Mississippi and Louisiana, and that it is the intention of the Board to make a thorough canvass of the field with a view to place the Word of God in every family. We, therefore; recommend that the members of this Conference institute diligent inquiry as to the needs of the people in their respective charges, and that we will heartily cooperate with its Superintendent to spread the Holy Bible, both in our land and in all lands.

Inasmuch as the General Conference has recognized the importance

of the Bible Cause by giving it a place in the official blanks,

Resolved, That we give this interest its proper notice in our congregations, and take up a collection at some suitable time during the year to help on this grand undertaking of placing a Bible in every family within our bounds.

R. S. TRIPPETT, our bounds.

MEMOIRS.

REV. JEPTHA LANDRUM.

Rev. Jeptha Landrum was born in Pike County, Ala., August 25, 1825; served in the Mexican War; graduated from the Law Department of the University of Louisiana in 1861; was for some time Chaplain in the Confederate service. He was happily married to Miss Missouri C. Butterworth, of Mansfield, La., January 21, 1864, and died, at his home, in West Melville, October 18, 1887.

In 1854 Bro. Landrum entered the Louisiana Conference, and was assigned to Natchiteches Circuit, and remained there during 1855. In 1856 he served the North Bossier Circuit, and in 1857. Thibodeaux Station. In 1858 he was assigned to Atchafalaya Circuit. In 1859 and 1860 he served Cadiz Street Church, New Orleans. In 1861 he served the North Bossier Circuit, and was stationed at Opelousas in 1862, and Mansfield in 1863. In 1864 he was appointed to Mansfield Circuit, and in 1865 to DeSoto Circuit.

At the Conference, held in Mansfield, December, 1865, Bro. Landrum withdrew from the Conference and entered into secular pursuits; but in 1877 he again entered the ministry, and was employed on East Point Circuit. In 1878 and 1879 he traveled Madison Circuit. In 1880 he was sent to Tensas Circuit, and was returned in 1881; but in August, of that year, was removed by his Presiding Elder, Rev. B. F. Alexander, to Winnsboro Circuit. In 1882 he traveled the Floyd Circuit, and in 1883 Rayville Circuit. In 1884 and 1885 he labored on the Rapides Circuit, and in 1886 was sent to Simmsport Circuit, and in 1887 to Melville Circuit, where he ended his life and labors. His last illness was long and painful, continuing through sixty-five days, during fifty of which he was given up by the physicians to die. During these days of intense suffering no word of murmuring was heard; not even a prayer that his sufferings might be less, or the period shortened, because he wanted to be made perfect through sufferings, and submitted to Him who doeth all things well. His consciousness continued to the last, and, in answer to the question asked by his sorrowing, yet patient wife, "Does Jesus save you now?" he replied, distinctly, "Yes, that He does;" and, raising his hands triumphantly, exclaimed: "Up, up, up, rejoice!" and ceased to breathe. Thus Bro. Landrum passed away from earth, doubtless, to enter the jasper walls and pearly gates of the New Jerusalem.

REV. J. D. JACKSON.

The subject of this notice was born at Clinton, La., March 15, 1861; was happily converted May 28, 1879, and joined the Methodist Episcopal Church, South, at Olive Branch, Last Feliciana Circuit, Mississippi Conference. He immediately commenced holding prayer meetings in the community, which were attended with success and profit.

He was strongly impressed from the moment of his surrender to the blessed Savior of his call to preach the gospel, and was licensed to preach at Manassa, East Feliciana, September 12, 1880.

He was married, March 16, 1882, to Miss Tanie L. Reames.

He served the church efficiently and acceptably, in the capacity of a local preacher, four years; was employed by the presiding elder to supply the Livingston Mission, which post he held in 1882 and 1883. In 1884 he was on the Grosse Tete and False River Circuit. Louisiana Conference, in connection with Rev. F. G. Hocutt.

He was recommended by the Grosse Tete Quarterly Conference to the Louisiana Annual Conference, and was received into the Conference at Minden, January 11, 1885,

He was appointed, in connection with the writer, as junior preacher to Vermilion and Rayne work, which was subsequently divided by the Presiding Elder. Rev. C. Keener, and he was assigned to Vermilion and Kimball's Chapel. In 1886 and 1887 he was appointed to the Opelousas charge, where he finished his course, July 25, 1887.

As a preacher, Bro. Jackson was earnest and impressive, aiming always at the heart of his auditors, and expecting immediate effects to attend the faithful preaching of the gospel. He never entered the pulpit without fervently entreating the presence of the Holy Spirit, both in his illuminating and sanctifying power, believing every human effort would prove ineffectual and abortive, however earnest and orthodox, if destitute

of supernatural influence and agency.

Sunday, previous to his triumphant exit on Monday, he said to his weeping wife, "This is the last night I shall spend with my family." On Sister Jackson interrogating him concerning his future prospects, he said, with his last gasping breath. "There"—meaning in heaven.

Thus, when the chariot descended, he was ready; and, through the trackless ether, on flying wheel and burning axle, he sped away, leaving behind earth, sun and constellation, for the Golden City; and, entering the gates of solid pearl, his fiery wheel and flaming steed stood still within walls of jasper, garnished with all manner of precious stones, while redeemed spirits came, joined by the angelic host, welcoming him to celestial companionship forever.

M. C. Mantey.

REV. JAMES PERRY PORTER.

Rev. James Perry Porter, son of Rev. B. S. and E. A. R. Porter, was born in Houston County, Texas, August, 1854, and departed this life. at Washington, La., July 30, 1887.

Bro. Porter was the subject of very early religious impressions, and when but a boy sought and obtained religion, and united with the Methodist Episcopal Church, South. Subsequent to his conversion he was strongly impressed with a call to the ministry; but, owing to his limited education, he hesitated to enter the sacred office. He carried in his own bosom convictions which he dare not disclose to his nearest friends, that often darkened his prospects and experience; nor were these convictions ever disclosed to any individual until the difficulties in his way of receiving an education were removed. Upon entering Centenary College he was licensed to preach; and during the two years he remained in that institution his ministerial labors were attended with a good degree of usefulness, and gave promise of future success.

While at College he suffered a severe attack of measles, from which he never fully recovered, which circumstance interfered largely with the prosecution of his studies, and, doubtless, shortened his collegiate career.

He was admitted on trial in the Louisiana Conference in 1883, held at Mansfield. His appointment that year was to Algiers and Gretna as junior preacher; but during the year he was, by the Presiding Elder, removed to Calcasieu Mission. In 1884 the mission was formed into Sulphur Mine Circuit, and he was returned. Owing to unavoidable circumstances during that year, the Presiding Elder moved him, and placed him at Rayne and Kimball's Chapel, then in connection with the Plaquemine Brulee Circuit. In 1885 and 1886 he was preacher in charge of Washington Circuit. He was returned in 1887, where he finished his course, and entered his Master's joy on July 30.

During his last illness he was a great sufferer. He was conscious of his death several days before it took place; arranged his matters; gave directions concerning his funeral, and then fell on sleep, and went home to God.

M. C. Manley, for Committee.

REV. J. J. BLANZ.

Rev. J. J. Blanz died. at the ripe age of 66 years, on March 27, 1887. He joined the German Mission Conference in 1882. A year ago, by the action of the General Conference, he became a member of the Louisiana Conference, and was appointed pastor of Soroparu Street Church. Without education or exquisite refinement, he was nevertheless well qualified successfully to labor in the fields assigned him.

Bro. Blanz was a man of deep piety, much native talent, great industry, hopeful disposition. The style of his preaching was hortatory. As a singer in Zion, he had few equals. As a pastor, he was indefatigable and faithful. The poor and forsaken found in him a devoted friend. He leaves an aged widow. His children are married and provided for. His end was peace. With the name of Jesus on his lips, his spirit passed away.

Soluble Pacific Guano,

MANUFACTURED BY

PACIFIC GUANO COMPANY,

UNDER SAME NAME.

SAME FORMULA FOR

TWENTY-FOUR YEARS

33

Since 1864 many other brands have lost favor owing to a lowering of their quality, and have disappeared from the market. Sometimes Merely to Reappear Under a New Name; but

SOLUBLE PACIFIC GUANO

Has never disappointed the high expectations based upon its record, and it stands to-day the only one of the pioneer American fertilizers still selling under its original name.

The popularity of Soluble Pacific Guano has led some competitors to COPY ITS NAME as closely as the law admits; but this has, in the long run, added to its trade, as planters have been quick to appreciate that a fertilizer which was

WORTH IMITATING

was still more worth seeking out and buying. Inasmuch as "IMITATION IS THE SINCER-EST FORM OF FLATTERY," we must look upon the PIRATING of our brand by our rivals as the strongest, because the most IMPARTIAL OF TESTIMONIALS. However delicate may be the compliment thus paid to our goods, it is quite as much undesired as it is unsought for, and we must caution those negotiating for "GUANO" who think they are figuring for our

OLD AND RELIABLE BRAND

to make sure they get only the genuine "SOLUBLE PACIFIC GUANO" made by the PACIFIC GUANO COMPANY, and bearing on every bag the name of GLIDDEN & CURTIS, GENERAL SELLING AGENTS.

The use of commercial fertilizers is fast increasing in America, and it is only a question of time when the Louisiana planter will, in this respect, follow the example of the most successful agriculturists elsewhere in using reliable fertilizers in the cultivation of their crops.

OUR SUGAR GRADE.

What is wanted in Louislana is a fertilizer which not merely give the plant AN EARLY START AND HEAVY GROWTH,

but shall equip the cane for storing up a greater quantity of CRYSTALLIZABLE sugar than is now the rule. In this connection, we would quote from Mr. A. Bouchereau's Louisiana Sugar Report of 1884-1885, wherein Mr. R. Sleg writes: "There are certain things in the cane industry, too, which are beginning to be criticised as barbarous; * * * * the cultivation of rank, watery cane by the inappropriate use of COTTON-SEED MEAL; the crushing of large masses of such cane, and the inevitable losses caused by the careless or hasty elaboration of its more easily fermentable juices is another." Those planters who have tried cotton-seed meal and mixtures made with it, and who have observed most carefully its efficiency in producing a crop of MOLASES, are the most eager to meet with a fertilizer better suited to their needs. We, therefore, offer to them

SOLUBLE PACIFIC GUANO

which experience has shown to be excelled by none in producing a CROP OF SUGAR.

OUR COTTON GRADE

is the same popular fertilizer which for twenty-five years has been sold under ORIGINAL NAME and has become a
